Independent University, IUB

Here is some basic system design of School Management System Web Application of ABC School –

Users

- Administrator (Super-Admin)
- Teacher (Admin)
- Student (Client)

Features

Students are the client of this web-app. Each student will have a unique ID and password after completing their admission.

In this application a student can –

1. Assignment upload/submission,
2. Watch Tutorial Videos (Lecture or class related),
3. Download Course Material,
4. Update info/profile,
5. Payment history,
6. Current CGPA
7. Email to Teacher or Administrator for query,
8. Student Online Registration,
9. Apply for hostel facility.

Each teacher will be an admin of this web application. A unique ID will be provided by Administrator for individual teacher. Teachers will login by entering ID and password to Dashboard.

Teachers will do –

1. Course Material Upload (Video/File),
2. Recommend online videos/tutorial,
3. Result update & publish,
4. Profile update,
5. Post urgent notice at Notice Board and notify each student through email.
